

# FORMWORK PROPS

Gorilla Formwork Props are a must for almost every building site.

The adjustable load bearing product is ideal for supporting ceilings, walls and other structures.

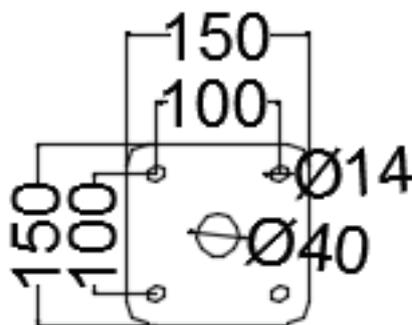

Safe working loads will depend on the formwork prop and the extension it is installed at. The height of the prop is adjusted by a screw thread on the outside of the prop shaft. The threaded screw allows tightening of the prop once in place.

- Available in 3 sizes
- Galvanised Steel finish
- Complies with AS3610

SAFE WORKING LOADS			
	CLOSED WLL:	OPEN WLL:	NET WEIGHT:
